1

Super Admin / Staff Logins

Role-based access control with 5 distinct user types

✓ COMPLETED

- ✓ **5 User Roles**
Super Admin, Recruiter Admin, Recruiter, Hiring Manager, Provider — each with distinct permissions and access restrictions. → [Sidebar > Admin Users](#)
- ✓ **JWT Login & Session Management**
Secure email/password login with 8-hour session expiry. Session warning dialog with one-click refresh appears before timeout. → [Login page](#)
- ✓ **Create & Manage Staff Accounts**
Admins can create new staff accounts, assign roles, and deactivate users from the Admin Users page. → [Sidebar > Admin Users](#)
- ✓ **Provider-Scoped Access**
Provider users can only view candidates linked to their own organisation. All other data is hidden.
→ [Log in as Provider role](#)
- ✓ **All staff login and access control requirements are fully implemented and live.**

2

Candidate Details

Full candidate profiles with employment tracking and document management

✓ COMPLETED

- ✓

Name / Email / Phone / Address

Full contact profile including Address Line 1 & 2, Postcode, City, State, and Country.

→ Candidates > Add Candidate
- ✓

Provider Link

Each candidate can be linked to a provider organisation via dropdown. Drives provider-wise reporting and scoped access. → Add/Edit Candidate > Provider field
- ✓

Interested Job

Free-text field to capture the type of role the candidate is looking for (e.g. Forklift Operator, Warehouse Packer). → Add/Edit Candidate > Interested Job
- ✓

Benchmark Hours / Week

Numeric field capturing the candidate's target working hours per week.

→ Add/Edit Candidate > Benchmark Hours
- ✓

Wage Subsidy (WS)

Yes / No toggle. If Yes, an Amount (\$) field appears to capture the subsidy value. Displayed on Candidate Detail under Work & Placement. → Add/Edit Candidate > Wage Subsidy
- ✓

Work Status

Tracks candidate employment state: Job Seeking / Employed / Placed / Inactive. Updates automatically on placement. → Add/Edit Candidate > Work Status
- ✓

CV & Document Upload

Upload PDF, Word, or image files directly from the Candidate Detail page. Documents can be downloaded or deleted. Categorised as Resume, ID, Certificate, or Other.

→ Candidate Detail > Documents section

✓

All candidate detail requirements — including Wage Subsidy — are fully implemented and live.

3

Provider Wise — Candidates Pool & Stats

✓ COMPLETED

Per-provider candidate pools with live status breakdowns

- ✓

Candidates Pool per Provider

Provider list page shows each provider with their total candidate count. Clicking a provider shows their full candidate pool. → Sidebar > Providers
- ✓

Candidates' Stats

Provider Detail page displays a real-time breakdown: Total / Placed / Job Seeking / Employed / Inactive candidates. "View all" button filters the Candidates list to that provider's pool.

→ *Providers > click any provider*

Provider-wise candidate pool and stats are fully implemented and live.

4

Vacancy Details

✓ COMPLETED

Job vacancy fields beyond the standard job listing

Job Board URL

Link to the external job posting (e.g. Seek, Indeed). Displayed as a clickable link on the Job Detail page. → *Create Job / Edit Job > Vacancy Details > Job Board URL*

Type of Vacancy

Full Time / Part Time / Casual / Contract / Temporary. Visible on Job Detail in the Vacancy Details panel. → *Create Job / Edit Job > Vacancy Details > Type of Vacancy*

No. of Positions

Number of open positions for the vacancy. Displayed on Job Detail. → *Create Job / Edit Job > Vacancy Details > No. of Positions*

End Date

The vacancy closing / end date. Displayed on Job Detail in the Vacancy Details panel. → *Create Job / Edit Job > Vacancy Details > End Date*

Staff Working Status

Active / On Leave / Resigned / Terminated. Tracks the status of the staff member managing the vacancy. → *Create Job / Edit Job > Vacancy Details > Staff Working Status*

All vacancy detail requirements — including End Date — are fully implemented and live.

5

Employer Details

✓ COMPLETED

Employer profiles with vacancy tracking and contact information

**General Details**

Employer name, industry, website, and description. Searchable from the Employers list.

→ *Sidebar > Employers*

**No. of Vacancies**

Open job count and total job count displayed on both the employer card (list view) and the Employer Detail page. → *Employers > click any employer*

**Type of Vacancies**

Vacancy types are captured per job and visible on each Job Detail page linked to the employer.

→ *Employer Detail > Jobs section*

**Contact Details**

Contact Name, Contact Email, Contact Phone, and Address stored per employer and displayed on the detail page. → *Employers > click any employer*

**Placement Count**

Total placements made with the employer shown on the Employer Detail page.

→ *Employer Detail > stats panel*

All employer detail requirements are fully implemented and live.

6**Placement Details****✓ COMPLETED**

One-click placement creation with automated welfare check tracking

**Employment Confirmation Email to Employer**

When a candidate is placed, an automated confirmation email is sent to the employer immediately. → *Job Detail > Applications tab > Place button*

**One-Click Placement + Job Start Date**

Any application can be converted to a placement in one click. A start date and optional notes are entered at the time of placement. → *Job Detail > Applications tab > Place*

**Tracking from Job Start Date**

Welfare checks are automatically scheduled from the placement start date: Day 1, Week 1, Month 1, Month 3, and Month 6. → *Sidebar > Placements > click any placement*

**Indicator / Email / Notifications at Required Timeline**

Colour-coded dot indicators show welfare check status (due / completed / overdue). Automated emails are sent to the employer at each milestone. → [Placements list > welfare check dots](#)

Job Welfare Checks — Automated Emails to Employer

At each welfare check milestone, an automated email is sent to the employer requesting confirmation of the candidate's ongoing employment.

→ [Placement Detail > mark welfare check complete](#)

All placement and welfare check requirements are fully implemented and live.

7

Reports

✓ COMPLETED

Date-filtered analytics with CSV export across three report types

Provider Wise Report

Shows all providers with total candidates, active, placed, job seeking, inactive counts, and placement rate. Filterable by date range. CSV export available.

→ [Sidebar > Reports > Provider Report tab](#)

Placement Tracking Report

Lists all placements with candidate name, job, employer, provider, start date, employer confirmation status, and welfare check indicators. Filterable by date range, employer, and provider. CSV export available. → [Sidebar > Reports > Placement Tracking tab](#)

Staff Wise Report

Shows each staff member's assigned jobs, active jobs, total applications managed, and total placements made. Filterable by date range. CSV export available.

→ [Sidebar > Reports > Staff Report tab](#)

Search / Filter Button

Date range and filter dropdowns only trigger a data refresh when the Search button is clicked — preventing accidental partial queries. → [Reports > Search button](#)

CSV Export

All three report tabs support one-click CSV download. Files open correctly in Excel and Numbers.

→ [Reports > Export CSV button \(top right\)](#)

All reporting requirements are fully implemented and live.

8

Report Layout

 IN PROGRESS

Planned enhancements to the reporting section — currently in progress

- 

Dashboard Summary Cards

Top-of-page stat cards showing total placements, active candidates, open vacancies, and provider count at a glance — before the tabbed report tables.

→ Reports page (planned — top section)
- 

Placement Rate Chart

Bar or pie chart visualising placement rates per provider over the selected date range, making it easier to identify top-performing providers at a glance.

→ Reports > Provider Report tab (planned)
- 

Welfare Check Completion Rate

Summary row or chart showing what percentage of welfare checks (Day 1, Week 1, Month 1, Month 3, Month 6) have been completed across all active placements.

→ Reports > Placement Tracking tab (planned)
- 

Printable / PDF Report Export

One-click PDF export of each report tab (in addition to the existing CSV export), formatted for email or printing.

→ Reports page (planned)
- 

Date Range Presets

Quick-select buttons — This Month, Last Month, Last 3 Months, This Year — to speed up common report queries without manually entering from/to dates.

→ Reports page filter bar (planned)

This section is currently

Work In Progress

— layout and chart designs are being finalised.
